### CLEARWATER FREEDOM LIBRARY

This book is dedicated to all freedom loving people, and to those who made the supreme sacrifice to preserve the American way of life.

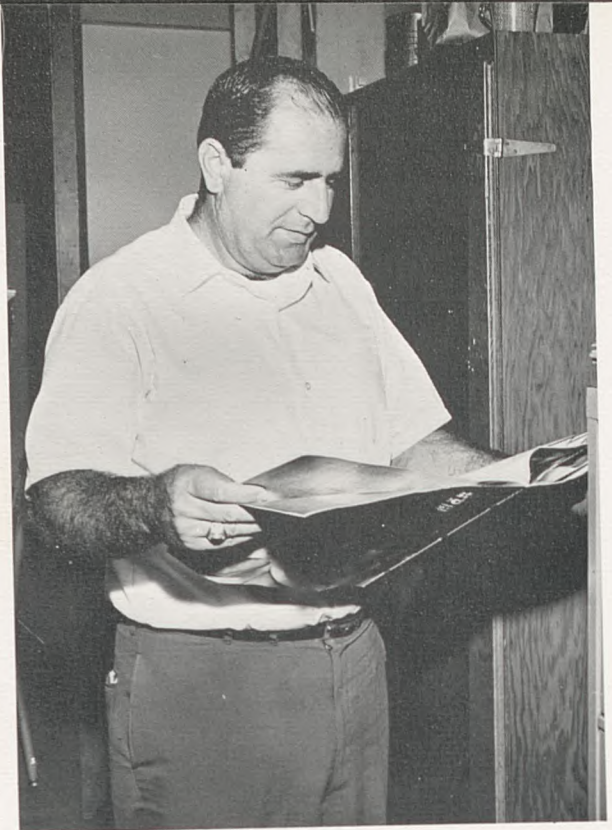

The purpose of this library is to inculcate within each citizen a sense of pride and patriotism for the principles of democracy that made America the leader of nations; and to be ever mindful of those who wish to destroy the institutions of law and order.

*What you have inherited from your fathers,  
earn over again for yourselves, or it will not  
be yours.*

*Sleep, the universal vanquisher.*

## *to our great greek*

in a world of opposing forces to which we sometimes feel we don't belong, you have shown concern for our generation and given us a better understanding of world affairs. you have done an outstanding job in alerting us to the dangers of communism. you have instilled in us a love of our country and given us a knowledge of our american heritage. you have put forth a continuing effort to maintain our freedom—by establishing the clearwater freedom library and by supporting our forces in vietnam.

to one who has devoted so much time and effort to one cause—our freedom in mind and body—we the senior class of '68 dedicate the 1968 aqua clara to you, mr. steve gerakios.

# ADVENTURES

# PROTEST AND PROGRESS

It may shock some Hippies to learn that living in disregard of conventions while pursuing art and intellectualism is older than antimacassars. Hippies even *look* like old-time Bohemians.

Also, there's nothing *unrespectable* about protest. Plato taught, in the 5th Century, B.C., that man can move toward the highest good by constant questioning of assumptions. His *Republic*, a plan for a new social order, was followed a thousand years later by St. Augustine's *City of God* . . . and in another thousand years by Sir Thomas More's *Utopia*.

The Great Seal of the United States proclaims a New Order of the Ages, *Novus Ordo Seclorum*. No sooner was the Great Experiment launched, than little experiments—agrarian communal colonies—sprouted from Texas to Massachusetts. These petered out, one way or another.

What changes the social order most radically is not revolt against society, but *practical invention*—moveable type, steam engines, electric light, automobiles, computers . . . the corporation, advertising, credit buying. Billions invested in research and development are accelerating changes.

Both protest and progress stem from discontent with things as they are. But progress *happens*—undramatically—the result of small, practical improvements. That's why your world will *not* be like the past, but a New Social Order.

# epilogue

during our 3 years at clearwater high we have known many friends. many more than any of us will ever be able to recall. only time will tell who is forgotten and who is remembered. but one friend will remain with us forever. that person is frank russell. his friendly smiles and joking remarks are things not easily forgotten. somehow he always seemed to bring a little brightness into the lives of the people he met and knew. he touched the hearts of so many individuals it is hard to say just who he did not know.

but, life is eternal, love is immortal, and death is only an horizon, and an horizon is only the limit of our sight ...

we knew him only a moment. now he is gone, but never forgotten ...

Warren,  
To one of my favorite people. This  
year has been great if  
only because I met you.  
The best of the best always.  
Jennifer  
P.S. I hope your problems get straightened  
out. J.S.

Warren  
To one of the  
nicest guys I  
know. Always stay  
just the way you are,  
it's best. We had a  
real good time with you  
this year, complications and all.  
Good luck always —  
Love,  
Sis

love, Jim
